Our best selling UPS

Eaton PowerWare 3105 / 700VA

The affordable, compact 3105 UPS system device was designed to deliver the best UPS power management solution for your small office or home office. Ready to switch to UPS battery power any time it detects a power problem within the utility, the 3105 UPS delivers reliable power quality and UPS backup power for wireless phones, small office PBX or key phone systems, home office workstations, small office desktop servers, small network nodes, point-of-sale systems, and computer peripheral devices.

700VA

A little more grunt

Eaton PowerWare 5110 / 1000VA

The Powerware 5110 uninterruptible power system (UPS) was designed to provide the best UPS power protection against the threats that lurk in public utilities. This line-interactive UPS system delivers the ultimate in power quality, constantly safeguarding your equipment from power outages, surges, sags, brownouts, and over-voltage conditions—while also providing varying degrees of power management for additional threats. If utility power is interrupted, even briefly, the Powerware 5110 transfers to UPS battery power.

1000VA
